PATOKA VALLEY AMATEUR RADIO CLUB

Indiana QSO Party & N3FJP & HamDash Refresher

A primary reason we are covering this now is to prepare for the Indiana QSO Party coming up May 3-4, 2025!

Agenda
• Indiana QSO Party Basics
• N3FJP Logging
• HamDash Scoreboard

Indiana QSO Party

How many attending have participated?

Indiana QSO Party

- Encourages hams around the world to **contact Indiana amateur radio stations on 160, 80, 40, 20, 15 & 10 meters SSB or CW**
- Runs Saturday **May 3 from 11 AM to 11 PM ET**
- Stations outside of Indiana work Indiana stations only
- *Indiana stations work everybody!*

Entry Categories

- Single Operator (High Power, Low Power, or QRP)
- Multi-operator Single Transmitter
- Multi-Operator Multi-Transmitter
- Mobile
- Portable (One County)
- Portable (County Line)
- Rover

Most Entries

High Power: **Greater than 100W**
Low Power: **100W or less**
QRP: **5W or less**

Duplicates are NOT allowed!

You can ONLY work stations ONE TIME on each band in SSB or CW

For that reason, CONTEST LOGGING SOFTWARE IS NEEDED *to avoid duplicates*

REPEATED DUPLICATES WILL MAKE YOU STICK OUT LIKE A SORE THUMB!!!!!

2025 Indiana QSO Party Rules

Read the Rules

1. Objective: For Amateurs worldwide to contact as many stations in Indiana as possible on the 160, 80, 40, 20, 15 and 10 meter Amateur bands.

2. Date and Time: The contest starts at 1200 UTC on the Saturday and ends at 0500 UTC on the Monday following the first full weekend of May. (Saturday 11am to 11pm EDT or 10am to 10pm CDT.) For 2025, this is May 3-4. All stations may operate the full 12-hour period.

3. Entry Categories:
   - Single-operator (High Power, Low Power or QRP). One person performs all logging, spotting, and operating functions.
     - Low Power is transmitter output of 100 watts or less.
     - QRP is transmitter output power of 5 watts or less.
   - Multi-operator single transmitter (Multi-Single). Only one signal is permitted on the air at any time.
   - Multi-Operator Multi-transmitter (Multi-Multi). Stations may operate without limit on the number of operators, transmitters or signals per band. Any station that transmits more than one simultaneous signal must enter as Multi-Mutli.
   - Mobile. Mobile is defined as a self-contained single or multi-operator station, capable of legal motion (land, water or air), motion optional. A mobile station that at any time uses a larger antenna incapable of being used in motion is considered a rover (see below).

Why Do INQP?

- Shake down your mobile/portable station
- Test the Field Day setup
- Test your emergency equipment
- Improve contest & message handling skills
- *Have Fun!!!*
